**Re: GN Docket No. 17-183**

On August 3, 2017, the Commission released a Notice of Inquiry in the above referenced proceeding (FCC 17-104). The Notice poses numerous questions regarding potential spectrum allocations, especially for mobile broadband, in the frequency range 3.7 to 24 GHz.

The Notice observes that this range includes bands which are also at issue in various other Commission proceedings. *Id.* at note 14. Among these bands are 4400-4940 and 5925-6700 MHz which are under consideration in ET Docket Nos. 12-338 and 15-99 et al. *See* Report and Order, Order, and Notice of Proposed Rulemaking, FCC 15-50, 30 FCC Rcd 4183 (2015) at paras. 206 et seq. (the “NPRM”). The NPRM contemplates allocation of these bands for Aeronautical Mobile Telemetry (“AMT”).

On August 31, 2015 and September 30, 2015, Aerospace and Flight Test Radio Coordinating Council, Inc. (“AFTRCC”) filed Comments and Reply Comments, respectively, in support of the proposed AMT allocation. For the reason stated therein, AFTRCC strongly urges that the Commission finalize this allocation.

The Notice of Inquiry urges parties which have already registered their positions in another proceeding to make reference to those earlier filings, rather than re-file their Comments in the Notice of Inquiry proceeding. *Id.* at note 15. Accordingly, AFTRCC draws the

Commission's attention to its earlier Comments in ET Docket Nos. 12-338 and 15-99, and incorporates them by reference herein.

If there are any questions regarding this matter, please kindly contact the undersigned.

Respectfully submitted,

William K. Keane  
*Counsel for AFTRCC*
